About the IASHK

The Institute of Arboriculture Studies Hong Kong 樹藝學術研究中心 (香港) (IASHK) is a non-profit organization dedicated to research in modern arboriculture and education. In addition to hosting the annual summit on arboriculture studies the IASHK also conducts a series of training workshops and seminars regularly. The IASHK is focused upon the further development of the arboriculture industry in Hong Kong and the surrounding region. IASHK has been active since 2008.

About Our Annual Summit; IAS-HK

The International Arboriculture Summit-Hong Kong 國際樹木會議-香港 (IAS-HK) is the annual conference in which well-known educators from around the world provide arboriculture related seminars each year at November in Hong Kong. From the beginning in 2008, the summit has included world-renowned arboriculture professors and professionals from the United Kingdom, Germany, Holland, France, Italy, the USA, and Hong Kong. Between 150-195 individuals from Hong Kong, Malaysia, Singapore, Macau, China, and other locations have been in attendance each year as the summit event has grown in popularity.

The value it offers in exposure to you as a company or individual consultant in the tree care industry is significant:

- You receive recognition from the entire international arboriculture community (the ISA & multiple chapters, etc.)
- Local and regional companies, educational institutions and businesses who regularly hire services will view your name as a participant (*multiple mailings go to over 1600 such as the above*)
- Local and regional government agencies are represented each year as they send management representatives to attend the summit and learn the correct practices in line with the industry

11th International Arboriculture Summit-Hong Kong (IAS-HK) 國際樹木會議-香港

14, 15, & 16 November 2018
21 CEUs potential

CO-Organizer
the Institute of Vocational Education (IVE) Shatin

“Air, Space, Sun, Soil, & Water – Key elements for a healthy tree”

The summit & educational seminars/workshops are possible as an effort of the Institute of Arboriculture Studies 樹藝學術研究中心 (香港). IASHK functions as a not-for-profit organization in Hong Kong.

Venue: Institute of Vocational Education (IVE) Shatin
